Pete Chronis founded Eonia Press in 2020. Chronis is a well-respected technologist and travels the world as a photographer, writer and storyteller. Chronis has a passion for history and a knack for conversation-style storytelling—a skill he honed for decades as a tech executive.

Chronis took his love of history and storytelling and began publishing a series of historically inspired non-fiction books focused on exploring the complicated world we live in.

He is the author of **The Cyber Conundrum: How Do We Fix Cybersecurity** a book that explores the complicated challenges of cybersecurity and uses lessons from history to develop and propose a national, moonshot-style strategy. An updated second edition will be released in early 2020. In his second book, **Hidden Lessons from History**, Chronis brings to life a unique collection of well-researched narratives complemented by more than 50 beautiful photographs. The reader is whisked away to faraway places as the book explores famous historical contradictions and honors those who made contributions lost by time. **Hidden Lessons from History** is scheduled to be released in October 2020.
